

Brandon Mountain  
TLStite Checkpoint  
03/18/2025

\* Files needed at runtime for TLStite client/server

1. CAcertificate.pem
  - Read by **both client and server**
  - **Role**: Contains CA's public key for certificate verification
2. CAsignedServerCertificate.pem
  - Read by: **Server**
  - **Role**: Server's certificate (signed by CA) for authentication
3. serverPrivateKey.der
  - Read by: **Server**
  - **Role**: Server's RSA private key for signing messages
4. CAsignedClientCertificate.pem
  - Read by: **Client**
  - **Role**: Client's certificate (signed by CA) for authentication
5. clientPrivateKey.der
  - Read by: **Client**
  - **Role**: Client's RSA private key for signing messages

\* CAprivateKey.pem, server.csr, client.csr NOT needed at runtime  
(is needed during certificate setup)
